

Al Mahara runs both Residential and Part Time Internship Programmes which cover Dive Master Training and Instructor Development Courses (IDC). For those who wish to undertake full time PADI professional training we have two Dive Centres in the Emirate of Abu Dhabi which offers contrasting and complimentary diving experiences and other water based activities. For those who are unable to undertake a Residential Internship or training because of personal commitments, we do offer training opportunities on a part time basis which will be structured to meet your personal needs with your own "*Scuba Sensei*".

Whilst most of these courses will be scheduled in order to maximize the utilization of our Professional Development Team, at Al Mahara we are flexible and understand that personal circumstances vary so we can make every effort to adapt programmes within reason, provided it is not to the detriment of other professional development candidates.

For Further Information see link to Internship Programme
